

CONVERSION APPLICATION FOR THE GRANT OF AN SFCL SPL – EFFECTIVE FROM 8 APR 2020

GUIDANCE NOTES AND FORM (updated 20th May 2021 re CAA Pilot Medical Declaration).

Each numbered box below refers to a corresponding part of the Conversion Application Form attached to this this guidance.

The detail is important. An incorrectly submitted application form or a missing piece of required information or a missing copy of a document will unfortunately result in the application being returned unprocessed.

1. APPLICANTS PERSONAL PARTICULARS

If you hold or have held a CAA licence, and /or CAA Medical Certificate, you may know your personal CAA reference number. By quoting it on the form, you will assist the application process.

As noted in section 1 of the form, a certified & clearly readable **full colour** copy of your valid Passport, EEA/EU National ID Card or Full EU Photographic Driving Licence that clearly identifies your personal details and picture must accompany your application as proof of identification.

The following people can act as certifiers where required in this application;

Club Chairman, CFI or Secretary, BGA authorised Flight Instructor Examiner, CAA authorised Examiner

Instructions for the Certifier;

- Insert on the copy to be enclosed with the application, 'I have seen the original document and I certify that this is a complete and accurate copy of the original'
- Certifier must sign and date
- Certifiers name must be printed in block capitals
- Must include position or capacity, eg. Club Secretary

2. ADDRESS FOR CORRESPONDENCE

Only complete this if you use a different address for correspondence from that described in section 1 of the form.

3. APPLICANTS MEDICAL FITNESS

An SFCL SPL can only be issued to an applicant who holds a valid medical certificate or declaration.

SPL applicants must hold either,

a LAPL medical certificate issued by a General Medical Practitioner (GMP – or GP in UK language) or an Aero Medical Examiner (AME). GMP's (GP's) use an online form which when submitted electronically to the CAA provides the only registration necessary by the GMP (GP), or

a Class 2 medical certificate issued by an Aero Medical Examiner (AME), or

have made a CAA Pilot Medical Declaration.

Please supply a certified copy of your certificate or declaration – please do not supply the original.

Medical Certificate Validity Period

Although excessively long turnaround times for applications are not expected, to ensure that a LAPL, Class 1 or Class 2 medical certificate remains valid throughout any application process, it is suggested that the medical evidence has at least 2 months validity remaining when you submit your application form.

Non-UK Issued Medical Certificate

Please ensure that if your medical certificate is issued outside the UK that the associated records are held by the UK CAA. If in doubt, please contact the CAA.

CAA Pilot Medical Declaration

Please ensure the copy of your CAA PMD includes the statement 'I confirm this pilot medical declaration print out is applicable to me and is correct', your CAA reference number if known, name, signature, and date.

4. APPLICANTS EXISTING & VALID QUALIFICATION STATUS

The conversion report submitted by the CAA provides the basis for conversion from BGA Gliding Certificate and Endorsements to Part-FCL requirements. An SFCL conversion appendix updates those requirements. You should tick on the application form the listed BGA and CAA qualifications that you hold.

The minimum requirement for conversion to an SPL is a Bronze Endorsement plus either the Cross Country Endorsement or, if the Bronze endorsement was achieved prior to the cross country endorsement being established within the BGA in April 1996, an FAI verified Silver Distance as issued by the BGA or other National authority. The Gliding Certificate, Bronze endorsement, Cross Country Endorsement and Silver Distance are all recorded by the BGA.

Certified copies of CAA class rating and instructor and examiner certificates must be included with your application form.

Cloud Flying Endorsement – this **BGA endorsement** recorded by the BGA is available free of charge if a completed BGA Cloud Flying Endorsement application is submitted with the conversion application. The BGA application form is at; <http://www.gliding.co.uk/forms/BGACloudFlyingEndorsementApplication.pdf>

Aerobatics Endorsement – pilots who hold any of the BGA aerobatics badges are automatically entitled to and deemed to hold this endorsement. Note that the badges include 'standard' and 'intermediate'. This is particularly relevant on conversion.

Assistant Instructor – self-explanatory. The BGA records instructor rating issue, validity and additional privileges.

Full Instructor – self-explanatory. The BGA records instructor rating issue, validity and additional privileges.

MGIR – this applies to those who hold a BGA Motor Glider Instructor Rating as recorded by the BGA.

Instructor Coach – this applies to those who have been formally approved by their CFI's to coach instructors at clubs and as recorded by the BGA

Flight Examiner – this applies to those applicants who qualify as/are equivalent to a BGA Flight Examiner as recorded by the BGA. The BGA records include additional BGA examining privileges.

Flight Instructor Examiner - this applies to those applicants who qualify as/are equivalent to a BGA Flight Instructor Examiner as recorded by the BGA

CAA Ratings or Authorisations – please tick the valid CAA issued ratings or authorisations held by the applicant. Copies should be submitted where applicable under section 5.

5. APPLICANTS CONVERSION REQUIREMENT AND BGA RECOMMENDATION TO THE CAA

This is the bit where you let us know what SPL privileges you require based on your existing BGA qualifications and other experience, what additional ratings, certificates and authorisations.

Please note that when a rating, certificate or authorisation is added to an SPL, the privileges in each case may only be exercised if the relevant recency, revalidation and other requirements that are associated with the licence, rating, certificate or authorisation are satisfied. You declare that you are aware of those requirements when you sign at the bottom of this section.

Please note that the more you can apply for at this stage, the less it will cost you in future when you need to add further elements through additional applications.

Carefully read each of the following 'descriptions' and 'conversion application requirements' before ticking the relevant box on the form.

Please note that in some cases, copies of certain documents are required. Please ensure that these are certified as described in 1 above. In all cases, applicants must complete the relevant part(s) of the **logbook evidence summary** that is included as part of the application form on page 5.

PIC = Pilot in Command.

The following matrix describes each of the items and the associated requirements that need to be in place on conversion. Read each one carefully before deciding whether to leave the item un-ticked or to tick the box on the application form as being required.

Flight Radio Telephony Operators Licence (FRTOL) – PLEASE READ VERY CAREFULLY

Description

This is the Flight Radio Telephony Operators Licence that under Part-FCL is part of the licence. It is not mandatory for you to hold an FRTOL, but please read these notes carefully.

If you do not want FRTOL privileges on the licence, do not tick the box. If you want to convert **existing** FRTOL privileges, you should tick the box. If you do not tick the box or the CAA does not have a record of you attaining a demonstrated level 6 English proficiency, you risk losing any existing FRTOL privileges.

The CAA will check their database to ensure you hold an FRTOL with level 6 English language proficiency. They will then add FRTOL to your new licence privileges. If you don't hold level 6 English language proficiency, CAA will reject your application.

If you are not sure whether you hold level 6 English language proficiency, the CAA can supply you with the information. You should contact the CAA via fclweb@caa.co.uk

Full details are on the [CAA website](#).

The CAA's English Language proficiency electronic application is at [CAA SRG 1199](#). Apply separately to the CAA ahead of completing and submitting your conversion application form to the BGA.

Initial issue of a FRTOL must be applied for separately and currently cannot form part of the licence conversion.

Licence Required

Sailplane Pilot Licence

Description	SFCL has a single licence called the Sailplane Pilot Licence (SPL). The licence privileges may be used with either a LAPL medical certificate, class 2 medical certificate or Pilot Medical Declaration (PMD).
-------------	--

Conversion Application Requirements	<p>Hold;</p> <ul style="list-style-type: none">The BGA Bronze Endorsement andThe BGA Cross Country Endorsement. However, if the applicant does not hold a BGA Cross Country Endorsement because it did not exist at the time they completed their BGA Bronze Endorsement, ie prior to April 1996, the applicant must hold a valid FAI Silver Distance, for example as verified & issued by the BGA. <p>The BGA Bronze Endorsement and the BGA Cross Country Endorsement and the Silver Distance are recorded by the BGA. If the Silver Distance where required (see above) was issued by an organisation other than the BGA, please provide a certified copy of the certificate with the application.</p>
-------------------------------------	---

Class Required

Sailplanes/Powered Sailplanes (in this case excluding TMG)

If you intend to continue to fly sailplanes with an SPL, you will need to have the privilege added to your licence.

This privilege includes self-sustaining (or turbo) sailplanes and *where additionally requested as a launch method*, self-launching powered sailplanes (but does not include TMG privileges)

(Self-launching sailplanes are sailplanes where the engine or propeller is extended and used for self-launching but have the characteristics of a sailplane. An example is a DG400).

Touring Motor Glider (TMG)

Description	<p>If you intend to continue to fly Touring Motor Gliders, you will need to have the privilege added to your licence. It is possible to have an SPL issued with TMG privileges only, ie no sailplane privileges.</p> <p>(A Touring Motor Glider (TMG) is a powered sailplane having an integrally mounted, non-retractable engine and a non-retractable propeller. It shall be capable of take-off and climbing under its own power according to the Flight Manual. Examples include the various Falke derivatives, Grob 109, Dimona, etc.)</p>

6. PAYMENT

The BGA processes and checks your application and subsequently submits a recommendation to the CAA who issue the licence. The CAA is paid a fee by the BGA for each SPL recommended by the BGA.

The fee is detailed at <https://members.glliding.co.uk/fees-and-charges/>

Please complete the credit or debit card payment form for the total conversion fee payable and submit it with your application.

Alternatively, please submit with your application a dated and signed cheque for the total conversion fee payable to 'The British Gliding Association'.

Check and check again....

Before posting or emailing your application to the BGA, please check that you have;

- Completed the form, including all the SPL licence privileges you are entitled to
- Signed the form where required
- Included all the required & certified evidence – **do not supply original documents**
- Included payment

And finally

Please take care when completing your application.

Please note that due to the size and nature of the conversion task, the BGA will return incomplete or erroneous applications. A return slip will advise applicants why an application has been returned unprocessed.

Thank you for your patience. Fortunately, the licence conversion process is a one-off exercise.
